

# MAIRS & POWER FUNDS

*Investing for the long-term*

**GROWTH FUND** Ticker Symbol: MPGFX

APRIL 30, 2018

## SUMMARY PROSPECTUS

The Fund's investment objective, risks and expenses must be considered carefully before investing. The Fund's Prospectus and Statement of Additional Information, both dated April 30, 2018, are incorporated by reference into this Summary Prospectus. To obtain the Fund's Prospectus and other information about the Fund free of charge, go to <http://www.mairsandpower.com> or call 800-304-7404.

### FUND SUMMARY

#### Investment Objective

Mairs & Power Growth Fund's (the Fund) fundamental objective is to provide shareholders with a diversified portfolio of common stocks, which have the potential for above-average, long-term appreciation.

#### Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

##### Shareholder Fees

*(fees paid directly from your investment)* . . . . . None

##### Annual Fund Operating Expenses *(expenses that you pay each year as a percentage of the value of your investment)*

Management Fees . . . . .	0.55%
Other Expenses . . . . .	0.09%
Total Annual Fund Operating Expenses . . . . .	0.64%

#### Expense Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and you then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the

same. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

1 year	3 years	5 years	10 years
\$65	\$205	\$357	\$798

#### Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or turns over its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 8.84% of the average value of its portfolio.

#### Principal Investment Strategies

The Fund invests primarily in U.S. common stocks. The Fund may also invest in securities of foreign issuers, which are listed on a U.S. stock exchange or are represented by American Depositary Receipts (ADRs). In selecting securities for the Fund, the Fund's investment adviser, Mairs & Power, Inc. (the Adviser) gives preference to holdings in high quality companies, which are characterized by earnings that are reasonably predictable, have a return on equity that is above-average, hold market dominance and have financial strength. Some emphasis is placed on small cap companies (companies with a market capitalization of

## FUND SUMMARY (continued)

less than two billion dollars at the time of initial purchase) and mid cap companies (companies with a market capitalization between two and ten billion dollars at the time of initial purchase). The Adviser focuses generally on companies located in the Upper Midwest region of the U.S. (which the Adviser considers to be the states of Illinois, Iowa, Minnesota, North Dakota, South Dakota and Wisconsin). The Adviser seeks to keep the Fund's assets reasonably fully invested, to maintain modest portfolio turnover rates and to moderate risk by investing in a diversified portfolio of equity securities.

The Adviser may sell the Fund's portfolio securities for a variety of reasons, such as to secure gains, limit losses, or redeploy assets into more promising opportunities.

### **Principal Risks of Investing in the Fund**

All investments have risks. The Fund is designed for long-term investors. You should be prepared to accept fluctuations in portfolio value as the Fund seeks to achieve its investment objective. The Fund cannot provide assurance that it will achieve its objective. Loss of money is a risk of investing in the Fund. The main risks of investing in the Fund are:

#### *Market Conditions*

The Fund's investments are subject to market risk, which may cause the value of the Fund to decline. Equity securities are generally subject to greater risk than fixed income securities in adverse market conditions. Markets may, in response to governmental actions or intervention, economic or market developments, or other external factors, experience periods of high volatility and reduced liquidity. During those periods, the Fund may experience high levels of shareholder redemptions and may have to sell securities at times when the Fund would otherwise not do so, potentially at unfavorable prices. Certain securities may be difficult to value during such periods.

#### *Fund Management*

Active management by the Adviser in selecting and maintaining a portfolio of securities that will achieve the Fund's investment objective could cause the Fund to underperform compared to other funds having similar investment objectives.

#### *Common Stock*

Common stocks held by the Fund will fluctuate in value based on the earnings of the company and on general industry and market conditions. The Fund could lose

money if a company in which it invests becomes financially distressed.

#### *Small Cap and Mid Cap Securities*

Small cap and mid cap companies may have a shorter history of operations and be less diversified with respect to their product line. Stocks of these companies tend to be more volatile and less liquid than large company stocks.

#### *Sector Emphasis Risk*

To the extent the Fund emphasizes, investments in a particular sector, the Fund will be subject to a greater degree of risks particular to that sector because companies in the sector may share common characteristics and may react similarly to market developments. Market conditions, interest rates, and economic, regulatory, or financial developments could significantly affect all the securities in a single sector.

#### *Industrials Sector Risk*

To the extent that the Fund invests a significant portion of its assets in the industrials sector, the Fund will be sensitive to changes in, and its performance will depend to a greater extent on, the overall condition of the industrials sector. The industrials sector may be significantly affected by general economic trends, including such factors as import controls, commodity prices, and worldwide competition.

#### *Securities of Foreign Issuers and ADRs*

There are certain risks in securities of foreign issuers which are not associated with domestic securities. These risks, among others, include political, social or economic instability, difficulty in predicting international trade patterns, taxation and foreign trading practices, and greater fluctuations in price than U.S. corporations. In addition, there may be less publicly available information about a foreign company than about a U.S. domiciled company.

#### *Minnesota/Upper Midwest Geographic Risk*

The Adviser focuses generally on securities of companies that are located in the Upper Midwest region of the U.S. The Fund typically emphasizes companies located in Minnesota, in particular. The Fund may be impacted by events or conditions affecting the region to a greater extent than if the Fund invested in more geographically diverse investments. For example, political and economic conditions and changes in regulatory, tax or economic policy in a state or region could affect the economy or particular business operations of companies located in the state or region.

## FUND SUMMARY (continued)

### Performance

#### Risk/Return Bar Chart and Table

The following bar chart and table illustrate the risks of investing in the Fund. The bar chart shows changes in the Fund's performance from year to year over a 10-year period. Both the chart and the table assume that all distributions have been reinvested. The Fund is the successor to Mairs and Power Growth Fund, Inc. (the Predecessor Fund), which was reorganized into the Fund effective December 31, 2011. The performance information for periods before December 31, 2011 reflects the historical performance of the Predecessor Fund. Visit the Fund's website at [www.mairsandpower.com](http://www.mairsandpower.com), or call 800-304-7404 for current performance figures. Past performance of the Fund, before and after taxes, is not necessarily an indication of how the Fund will perform in the future.

During the period shown on the bar chart, the Fund's best and worst quarters are shown below:

Highest Quarter 2nd Quarter, 2009 17.71%

Lowest Quarter 4th Quarter, 2008 -22.23%

#### Average Annual Total Returns

The following table shows how the Fund's average annual returns before and after taxes for one, five and ten years compare to those of the S&P 500 Total Return Index. The unaudited after-tax returns shown in the table are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts (IRAs).

#### Average Annual Total Returns

(For the periods ended December 31, 2017)

	1 year	5 years	10 years
Return Before Taxes	16.52%	13.83%	9.21%
Return After Taxes on Distributions	13.73%	12.28%	8.24%
Return After Taxes on Distributions and Sale of Fund Shares	10.96%	10.86%	7.39%
S&P 500 Total Return Index (reflects no deduction for fees, expenses or taxes)	21.83%	15.79%	8.50%

#### Portfolio Management

The Fund employs Mairs & Power, Inc. to manage the Fund's investment portfolio.

Mark L. Henneman, lead portfolio manager of the Fund since July 1, 2013 and co-manager of the Fund from January 2006 to June 2013, is Chairman and Chief Executive Officer of the Adviser. Andrew R. Adams, co-manager of the Fund since January 1, 2015, is Chief Investment Officer, Executive Vice President and Director of the Adviser.

#### Purchase and Sale of Fund Shares

The minimum initial and subsequent investment amounts offered by the Fund are:

Type of Account	Minimum Investment	Subsequent Investment
Regular	\$2,500	\$100
IRA	\$1,000	\$100

You may purchase, exchange or redeem Fund shares directly through the Fund's transfer agent by writing or calling:

Mairs & Power Funds  
c/o U.S. Bancorp Fund Services, LLC  
P.O. Box 701  
Milwaukee, WI 53201-0701

Telephone: 800-304-7404

Qualifying shareholders may also purchase, exchange or redeem Fund shares online at [www.mairsandpower.com](http://www.mairsandpower.com).

## FUND SUMMARY (continued)

Fund transactions may be made on any day the New York Stock Exchange is open for business. Investors who wish to purchase or redeem Fund shares through a bank, broker-dealer, financial adviser or recordkeeper (Financial Intermediary) should contact the Financial Intermediary directly for information relating to the purchase or sale of Fund shares.

### **Tax Information**

The Fund's distributions are taxable and will be taxed as ordinary income or long-term capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an IRA. You may be taxed later upon withdrawal of monies from such tax-deferred arrangements.

### **Payments to Broker-Dealers and Other Financial Intermediaries**

If you purchase the Fund through a Financial Intermediary, the Fund may pay a fee to the intermediary for sub-transfer agent and other administrative services. The Adviser may also pay the intermediary for the sale of Fund shares and other services. These payments may create a conflict of interest by influencing the Financial Intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your Financial Intermediary's website for more information.
