## WHAT WERE THE FUND COSTS FOR THE PAST YEAR? (based on a hypothetical \$10,000 investment)

Fund Name	Costs of a \$10,000 investment	Costs paid as a percentage of a \$10,000 investment
Mairs & Power Growth Fund	\$65	0.62%

## HOW DID THE FUND PERFORM LAST YEAR AND WHAT AFFECTED ITS PERFORMANCE?

Market leadership in 2025 was again driven by a narrow group of large cap Technology and artificial intelligence focused companies. Our deliberate effort to increase Technology exposure helped the Fund participate, though the Fund still lagged the S&P 500 Total Return Index in a concentrated, momentum driven market. Stock selection was a headwind, with declines in long term holdings such as Fiserv and UnitedHealth Group weighing on relative performance. The Fund’s emphasis on Midwest based and small cap companies also impacted performance, as these areas continued to trail the benchmark. We added high quality names such as Zoetis and Intuitive Surgical, which we believe are positioned to benefit from utilizing artificial intelligence to accelerate innovation. We remain dedicated to our disciplined multi cap investment approach that has guided us for more than 95 years.
