**FUND SUMMARY**

**Investment Objective**

Mairs & Power Growth Fund’s (the Fund) fundamental objective is to provide shareholders with a diversified portfolio of common stocks, which have the potential for above-average, long-term appreciation.

**Fees and Expenses of the Fund**

This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.

**Shareholder Fees** *(fees paid directly from your investment)* ........ None

**Annual Fund Operating Expenses** *(expenses that you pay each year as a percentage of the value of your investment)*

**Expense Example**

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest $10,000 in the Fund for the time periods indicated and you then redeem all of your shares at the end of those periods. The example also assumes that your...
investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

<td>$362</td>
<td>$810</td>
</tr>
</tbody>
</table>

**Portfolio Turnover**
The Fund pays transaction costs, such as commissions, when it buys and sells securities (or turns over its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 10.77% of the average value of its portfolio.

**Principal Investment Strategies**
The Fund invests primarily in U.S. common stocks. In selecting securities for the Fund, the Fund's investment adviser, Mairs & Power, Inc. (the Adviser), gives preference to companies that exhibit the potential for above-average growth and durable competitive advantages at reasonable valuations. In the Adviser's experience, these securities typically have strong returns on invested capital. The Adviser follows a multi-cap approach and the Fund invests in stocks of small-cap, mid-cap and large-cap companies. The Adviser focuses generally on companies located in Minnesota and other states in the Upper Midwest region of the U.S. (which the Adviser considers to be the states of Illinois, Iowa, Minnesota, North Dakota, South Dakota and Wisconsin). The Fund may also invest in securities of foreign issuers, which are listed on a U.S. stock exchange or are represented by American Depositary Receipts (ADRs). The Adviser seeks to keep the Fund's assets reasonably fully invested, to maintain modest portfolio turnover rates and to moderate risk by investing in a diversified portfolio of equity securities.

The Adviser may sell the Fund's portfolio securities for a variety of reasons, such as to secure gains, limit losses, or redeploy assets into more promising opportunities.

**Principal Risks of Investing in the Fund**
All investments have risks. The Fund is designed for long-term investors. You should be prepared to accept fluctuations in portfolio value as the Fund seeks to achieve its investment objective. The Fund cannot provide assurance that it will achieve its objective. Loss of money is a risk of investing in the Fund. The Fund's principal risks are presented in alphabetical order to facilitate finding particular risks and comparing them with the risks of other funds. Each risk summarized below is considered a "principal risk" of investing in the Fund, regardless of the order in which it appears. The main risks of investing in the Fund are:

**Common Stock Risk**
Common stocks held by the Fund will fluctuate in value based on the earnings of the company and on general industry and market conditions. The Fund could lose money if a company in which it invests becomes financially distressed.

**Fund Management Risk**
Active management by the Adviser in selecting and maintaining a portfolio of securities that will achieve the Fund's investment objective could cause the Fund to underperform compared to other funds having similar investment objectives.

**Healthcare Sector Risk**
To the extent the Fund invests in a significant portion of its assets in the healthcare sector, the Fund will be sensitive to changes in, and its performance will depend to a greater extent on, the overall condition of the healthcare sector. Companies in the healthcare sector are subject to extensive government regulation and their profitability can be significantly affected by regulatory changes. Other risk factors include rising costs of medical products and services, pricing pressure and limited product lines, loss or impairment of intellectual property rights and litigation regarding product or service liability.

**Industrials Sector Risk**
To the extent that the Fund invests a significant portion of its assets in the industrials sector, the Fund will be sensitive to changes in, and its performance will depend to a greater extent on, the overall condition of the industrials sector. The industrials sector may be significantly affected by general economic trends, including such factors as import controls, commodity prices, and worldwide competition.

**Large-Cap Risk**
Large-cap companies perform differently from, and at times and for extended periods of time worse than, stocks of mid- and small-cap companies. Larger, more
established companies may be unable to respond quickly to new competitive challenges.

**Minnesota/Upper Midwest Geographic Risk**
The Adviser focuses generally on securities of companies that are located in the Upper Midwest region of the U.S. The Fund typically emphasizes companies located in Minnesota, in particular. The Fund may be impacted by events or conditions affecting the region to a greater extent than if the Fund invested in more geographically diverse investments. For example, political and economic conditions and changes in regulatory, tax or economic policy in a state or region could affect the economy or particular business operations of companies located in the state or region.

**Recent Market Events Risk**
U.S. and international markets have experienced significant periods of volatility in recent years. The Fund’s investments are subject to market risk, which may cause the value of the Fund to decline. Equity securities are generally subject to greater risk than fixed income securities in adverse market conditions. Markets may, in response to economic, political and global macro factors including the impact of the coronavirus as a global pandemic and related public health issues, growth concerns in the U.S. and overseas, uncertainties regarding interest rates, trade tensions and the threat of tariffs imposed by the U.S. and other countries, experience periods of high volatility and reduced liquidity. During those periods, the Fund may experience high levels of shareholder redemptions and may have to sell securities at times when the Fund would otherwise not do so, potentially at unfavorable prices. Certain securities may be difficult to value during such periods.

**Sector Emphasis Risk**
To the extent the Fund emphasizes investments in a particular sector, the Fund will be subject to a greater degree of risks particular to that sector because companies in the sector may share common characteristics and may react similarly to market developments. Market conditions, interest rates, and economic, regulatory, or financial developments could significantly affect all the securities in a single sector.

**Securities of Foreign Issuers and ADRs Risk**
There are certain risks in securities of foreign issuers which are not associated with domestic securities. These risks, among others, include political, social or economic instability, difficulty in predicting international trade patterns, taxation and foreign trading practices, and greater fluctuations in price than U.S. corporations. In addition, there may be less publicly available information about a foreign company than about a U.S. domiciled company.

**Small-Cap and Mid-Cap Securities Risk**
Small-cap and mid-cap companies may have a shorter history of operations and be less diversified with respect to their product line. Stocks of these companies tend to be more volatile and less liquid than large company stocks.

**Performance**

**Risk/Return Bar Chart and Table**
The following bar chart and table illustrate the risks of investing in the Fund. The bar chart shows changes in the Fund’s performance from year to year over a 10-year period. Both the chart and the table assume that all distributions have been reinvested. The Fund is the successor to Mairs and Power Growth Fund, Inc. (the Predecessor Fund), which was reorganized into the Fund effective December 31, 2011. The performance information for periods before December 31, 2011 reflects the historical performance of the Predecessor Fund. Visit the Fund’s website at www.mairsandpower.com, or call 800-304-7404 for current performance figures. Past performance of the Fund, before and after taxes, is not necessarily an indication of how the Fund will perform in the future.

During the period shown on the bar chart, the Fund’s best and worst quarters are shown below:

- **Highest Quarter**: 1st Quarter, 2012  14.99%
- **Lowest Quarter**: 3rd Quarter, 2011  -16.11%
**Average Annual Total Returns**
The following table shows how the Fund’s average annual returns before and after taxes for one, five and ten years compare to those of the S&P 500 Total Return Index. The unaudited after-tax returns shown in the table are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor’s tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts (IRAs).

P.O. Box 701  
Milwaukee, WI 53201-0701  
Telephone: 800-304-7404

Qualifying shareholders may also purchase, exchange or redeem Fund shares online at www.mairsandpower.com.

Fund transactions may be made on any day the New York Stock Exchange is open for business. Investors who wish to purchase or redeem Fund shares through a bank, broker-dealer, financial adviser or recordkeeper (Financial Intermediary) should contact the Financial Intermediary directly for information relating to the purchase or sale of Fund shares.

**Tax Information**
The Fund’s distributions are taxable and will be taxed as ordinary income or long-term capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an IRA. You may be taxed later upon withdrawal of monies from such tax-deferred arrangements.
Payments to Broker-Dealers and Other Financial Intermediaries
If you purchase the Fund through a Financial Intermediary, the Fund and/or the Adviser may pay a fee to the intermediary for sub-transfer agent and other administrative services. The Adviser may also pay the intermediary for the sale of Fund shares and other services, although payment for the sale of Fund shares is not a current practice for the Adviser. These payments may create a conflict of interest by influencing the Financial Intermediary and your salesperson to recommend the Fund over another investment. You may be required to pay commissions and/or other forms of compensation to a broker for transactions in the Fund, which are not reflected in the fee table or expense example. Ask your salesperson or visit your Financial Intermediary’s website for more information.
